letter of the D.C. Tumkur dt.
in regard to the measures
necessary for affording relief
to the people in the Madapa
Pavagada Taluks consequent
on the rainfall from 18th to
24th inst. & he commends Sanction
to them.

Subd for orders.

In view of the well distributed
rains - even in the affected areas,
the R.C. recommends the taking
up of V. I. works & metal
collection on roads, as T. & T.R.
works cannot be taken up.

Metal Collection: In metal collection, the R.C.
says that a portion of the allotment
for T. & R. works may be devoted this
year for which Sanction seems to be necessary
to direct ordinary funds of two
taluks for this purpose.

V. I. Works: The D.C. has already got
an allotment of Rs 6500/- out of
the District grant for V. I. works
in Tumkur dt. There does
not seem to be any necessity to give

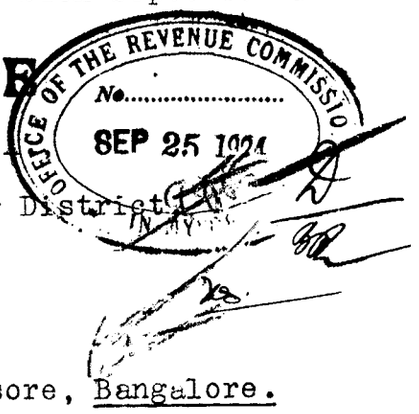
O.C.1840/22-23

Office of the Deputy Commissioner,
Tumkur District.
Dated Tumkur, the 24th September 1924

IMMEDIATE



From

Md. Zahiruddin Mecci, Esquire.,B.A.,
Deputy Commissioner, Tumkur District.

To

K. C h a n d y, Esquire., B.A.,
Revenue Commissioner in Mysore, Bangalore.

Sir,

I have the honor to state that there has been some rainfall all over the District, including the affected parts,of Maddagiri and Pavagada. I enclose herein a statement of rainfall gauged in the several stations for perusal.

2. These showers, while providing some drinking water, have on the other hand, owing to the influx of water to a large number of tanks proposed to be started to provide work to the labour class, hampered the immediate execution of the maintenance works. The cooly class have thus been deprived of the only chance of earning their livelihood. The Engineering Department who were arranging to start these maintenance works have for this reason suspended all activities.

3. In this connection, I had a talk with the Executive Engineer, this morning, and he is of opinion that besides the few feeder channels and any Possible Village Improvement works, some large original irrigation work will have to be started immediately. I therefore propose the following.:

(1) The construction of the major tank near Thumbadi has been under consideration for a long time and the Chief Engineer is in favour of the project(Vide your Memo No.D.44/23-24 dated 19th September 1924). This work is capable of engaging a large number of coolies from 2000 to 3000 and is situated in a central place. A large number of people, whose primary occupation is cooly will have to be provided with labour, till the next harvest, grant-

granting that the 'Hingar Rains' in the remaining period of the season would be favourable. Government have now sanctioned a sum of Rs.15000/- for Tank maintenance works and a similar sum for restoration works in the District. But, as this sum cannot be utilised immediately for that purpose for the reasons stated above, a sum of Rs.10000/- at least out of the above, may, to begin with, be permitted to be utilised for this new project. I, therefore, request ~~xxx~~ that immediate sanction of Government may kindly be obtained to start the work. Necessary steps are being taken to obtain mutchalikas in the matter of recovering the necessary water rate and acreage contribution from the intending atchkatdars.

(2) I had suggested ~~xxxx

The experimental kitchens started under your instructions at Kodagadale is working very satisfactorily. As I understand, that some of the recipients of this relief elsewhere are in the habit of exchanging the doles of grain granted to them with a handful of groundnut or fried Bengal gram(Hurikadle), at the nearest shop, I am asking the Amildar to arrange for the distribution of cooked food instead of raw rations without incurring extra expenditure, as such articles are not only not calculated to give any real nourisjment to them, but they may not agree with their half starved stomachs and may thus create diarrhoea and other gastric troubles

As regards the Village Improvement works, I have to bring to your notice that in places,where the construction of Gokattes or roads cannot be undertaken, pits in convenient gomal or other lands of communal nature, fit for growing groves(Topes) may be dug out and trees planted, running a cheap wall to form an enclosure. As the Executive Engineer was of opinion that the recent rains will prevent any cooly being provided for those in need of it, I have issued orders to the Amildars concerned, pending further arrangements, to take prompt steps in the matter. In addition to Rs.6500/- already granted for Village Improvement works, a further allotment of Rs.6000/- as already applied for, may kindly be placed at my disposal for these works, with permission to waive the raiyets' share of contribution fully in each case, and I request the favour of very early orders in the matter.

As regards Charaka and other arrangements suggested in your letter of the 15th instant, to take a census of persons in need of gratuitous relief, I have been collecting necessary particulars from the Sub Division Officer and other leading gentlemen of Maddagiri and have also addressed the Scout Commissioner and others, and on hearing from them I shall submit a further report. But funds are very urgently required to place orders for the import or manufacture of at least 200 Charkas to begin with. I request that Rs.1000/- may be placed at my disposal as an initial item of expenditure on this account.

I have the honor to be

sir,

Your most obedient servant,

DEPUTY COMMISSIONER

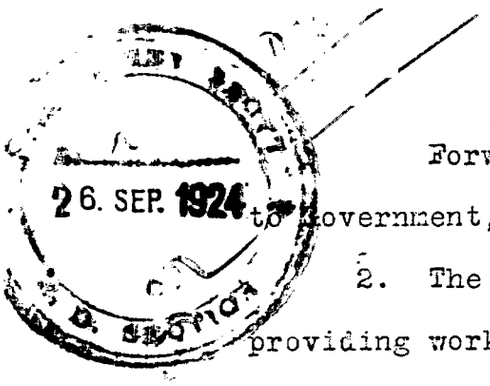
16855

395
Rev 1-24-1

Immediate.

Office of the Revenue Commissioner in Mysore,

Dated Bangalore, 25th September 1924.



Memo.

Forwarded with compliments, in original, to the Secretary to Government, Revenue Department.

2. The Deputy Commissioner's report shows the need for providing work at easily accessible centres for the cooly classes, since the Tank works proposed to be started cannot be begun owing to recent rainfall. There is every hope of the north-east monsoon also filling the tanks and thus, the items of Tank Maintenance and Tank Restoration works as relief workswill have to be given up at least for the present. The only course left open to provide labour seems to be to start metal collection on roads throughout the length of the roads (Provincial, Municipal and District Fund) in the affected tracts and to increase the number of Village Improvement Works. For metal collection, the ordinary funds of the Public Works Department will have to be diverted for this purpose by a special order of Government; even the ordinary allotments in non-distressed areas may easily be diverted for this purpose in the affected areas. If considered necessary, the funds sanctioned for Tank Maintenance works may be partially diverted for this purpose. It may be kindly noted that gravel collection is not recommended as, with the greatest vigilance, the quantity collected is liable to very great diminution in course of time.

3. For Village Improvement Works, the further allotment of Rs 6,000/- asked for by the Deputy Commissioner may kindly be placed at his disposal with permission to waive the ryots's share of contribution fully in each case.

4. As regards the Thumbadi Major Tank project, the Chief Engineer may be requested to investigate the feasibility of starting the same as early as possible.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE,

General and Revenue Secretariat,

No. 228/Ds 1-14-3 Dated, Bangalore 6-10-1924

From

K. V. Anantaraman, Esq., B.A.,
Secretary to the Government of His Highness the Maharaja of Mysore,
Revenue Department.

To

John Shore, Esq., A.M.I.C.E.,
Chief Engineer in Mysore.

Sir,

I am directed to state that, in connection with the measures for the relief of Distress in the Maddagiri and Pavagada Taluks in the Tumkur District, the collection of road metal and gravel is suggested by the Deputy Commissioner to be taken up as a form of relief as distress owing to the recent heavy rains tank maintenance works have become impossible and to request you to be so good as to instruct the Executive Engineer, Tumkur Division to take up the work, the expenditure therefore being met from the normal grants of the P.W.D. Works Department during the current year. If, however, additional funds are required for the purpose, a separate reference may be made to Government when the question of diverting the required amount out of the special grants given for Tank Maintenance works and P.W.D. Works will be considered.

I have the honor to be,

Sir,

Your most obedient servant,

Sd/- K. V. Anantaraman,

Secretary to Government,
Revenue Department.
